

Proposal for the Clerk to have a Corporate Credit Card

We have discussed this on and off over the last year or so. Making purchases online using my personal credit card is contrary to Financial Regulations 9.

A debit card is not an option as the account required two signatures. I have spoken to other local town clerks who all have corporate credit cards which are settled monthly. Most have a credit limit of £2,000 which covers most monthly spend. My personal transaction limit is £500. Together with the Chair of the Council or a delegated committee, this can be increased to £2,000

This proposal is for the Full Council in May to approve a corporate Credit Card for my use with a credit limit of £2,000
