

Neighbourhood Plan Vision for Wickham Market – 40 Responses on 6 Nov 2016

	Do you agree with this vision?		Pick your top 3	Any Comments?
	Yes	No		
Housing for All	32	2	14	<ul style="list-style-type: none"> • The demographic profile indicates a radical 'depopulation' by 2030 – the village needs housing for young people. • Any houses built for the elderly should be convertible to flats when the tidal wave of old people has passed. • Didn't seem any mention of 'flats to buy' for retirees. Warden maybe. • Including sheltered accommodation for elderly • All are important and dependant on each other • Affordable housing for working people as well as those who don't work • High affordable housing requirements
A viable community	34	2	16	
Maintaining the Green Environment	33	3	14	A rural village is ??
An attractive village centre	35	2	16	<ul style="list-style-type: none"> • Get rid of ugly car park in centre of village. Use some of land at football club (there <u>are</u> two playing fields) • WM is full of history and should be maintained as such

Traffic and Parking	34	2	21	<ul style="list-style-type: none"> • Priority arrows by the post office. Narrowing. • Maybe a one way system • Deterrence of heavy vehicles
Better Facilities and Services	35	2	13	<ul style="list-style-type: none"> • Roof and flood lights for tennis courts • Improve local bus services (for non-drivers) and drivers just going to local towns . R bus service to Framlingham – very hard on non-driving pensioners getting to doctors at WM. Better bus service between Felixstowe and Woodbridge and WM – 91/2 hours journey time for 3 ½ hours in Felixstowe • My children cannot get a bus to school as service is limited. A smaller bus could be offered between main services. • Links to station • Mobile phone signals are an economic problem • A pub is essential whether it is rebuilding The George or a new pub location
An inclusive and caring society	29	2	16	<ul style="list-style-type: none"> • Practical improvements are the most useful. 'Inclusive' and 'caring' are a bit vague
